Relevant Experience

UI/UX Development Intern @ Cars of America
May 2022 – August 2022 // Houston, TX

▷ Customized a WordPress theme for the auto dealership & rental company
▷ Implemented various e-commerce functionalities and features to enhance the user experience and increased conversion rate to 3%
▷ Optimized the website for search engines (SEO) and increased organic traffic by 78%

Projects

davidmoon.io // Personal Portfolio Website

▷ A personal portfolio website built with Gatsby and hosted on Netlify. The website is designed to showcase my projects, skills, and experience as a web developer.

clocks.app // Online Clock Web Application

▷ A clock web application built with Next.js and hosted on Netlify. The website offers high-performance and sleek, minimalist designed clocks.

classia.io // Classical Novel Review Website

▷ A full-stack web application hosted on Heroku. The website offers a comprehensive list of most highly rated literature from authors who have been deceased for at least 30 years.

carsofamerica.biz // Auto Dealership & Rental Website

▷ A custom WordPress website that provides a comprehensive solution for customers to schedule maintenance services and rent vehicles online.
